Authorization for this examiner's amendment was given in a telephone interview with Robert R. Richardson on 02/19/2007.

Withdrawn claims 19-37 have been considered and rejoined into the application. Therefore, all claims 1-37 will examine in merit.

Claims 1-37 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a passive terminator between a plurality of nodes including a voltage divider configured to passively set a differential voltage level between first and second voltage levels with a transformer electrically connected therebetween and using a Thevenin resistance electrically connected between the nodes wherein the transformer has a reactance greater than the Thevenin resistance of the first and second voltage dividers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
